

LAKE TROUT

SPINNING REELS

Carrying Case and Accessories

Special contoured cradles in rugged ABS plastic case hold reel, battery pack, and accessories. Separate plastic lift-out tray has 8 compartments for lures. Accessories include: Spare battery pack; UL approved charging unit; Two quick-change spools—one with 265 yds. of high-quality (10-lb. test) monofilament line; Mask® spray lubricant.

One year guarantee under normal use on all parts, accessories, and energy cells. Repairs, during warranty, made at no charge for labor or parts.

REEL-LECTRIC®. Best of any spinning reel in its class. Powerful and whisper-smooth. Full range of lure retrieve speeds. Rechargeable battery pack with power to spare for a full day's fishing enjoyment. Thumb-control button permits you to select lure retrieve speed, fish with either hand, benefits the ambidextrous and the handicapped.

The "CATS". Fishermen who demand quick response and smooth performance in all game fishing situations look to Cheetah® 500, Cougar® 600, or Jaguar® 800. They're the finest. Old Pal engineered, made in Italy, loaded with features that guarantee years of trouble-free fishing pleasure. The unique 3-T (Twin Torque Transfer) Drag is an example. It maintains a steady fish-tiring pressure long after other drags have burned out.

Tom Cat™ 25, Lynx™ 130, and Leopard™ 135 offer everything you'd expect in quality spinning reels at a popular price. Light, compact, rugged construction. The balance and feel of expensive models. Real smoothness of action. A lifetime of troublefree performance.
